FINE STOCKS.

Made by Schs. Preceptor and Norumbega.

Crew of Former Craft Get Over \$100 Each.

Sch. Preceptor, Capt. James Goodwin, stocked \$4600 on her recent halibut trip, the crew sharing \$110. This is the best stock and share made in the fresh halibut fishery for some time. Capt. Goodwin is one of those quiet, steady-going skippers who always does well and can be counted on for a big year's work.

Sch. Norumbega, Capt. John McKinnon, stocked \$3886.14 on her recent seining trip, the crew sharing \$90.95. There are but few vessels ahead of the Norumbega in the seining fleet.

Good Trip.

Sch. Pauline, Capt. Patrick Vale, arrived from Georges to-day with a splendid fare of 55,000 pounds of salt cod. Capt. Vale seldom gets left on a fine trip.

Sch. Tidal Wave, Capt. William Forbes, arrived from Georges this morning with 60,000 pounds of salt cod, the finest deck haul line trip of the season.

Good Fare.

Sch. American, Capt. Newman Wharton, arrived from Grand Bank this forenoon with a good fare, 240,000 pounds of salt cod. The American was among the last of the fleet to start this spring, it being Capt. Wharton's first trip as skipper. May he keep up the gait he has started.

Hodgdon with 150 bbls., and Emma with 80 bbls. Schs. Lottie G. Merchant, Nourmahal, Eliza H. Parson, Alice M. Parsons and Alva were also there, but their fares are not reported, although all the vessels had fish, caught off Mt. Desert. Sch. Mary A. Downes, Capt. Harry Wilson, netting, landed 2000 mackerel, which were sold to J. L. Stanley & Sons at 5 cents each.

The fare of sch. Latona sold to Slade Gorton & Co. at \$12.62 1-2 per barrel for rimmed mackerel and \$11.75 per barrel for plain.

Two hundred and fifty barrels of fresh mackerel are due at Boston to-day on the Yarmouth, N. S., steamer, and more on the Halifax boat.

Steamer Halifax has brought to Boston yesterday, 2079 barrels and packages of fresh and salt mackerel.

The Portland mackerel packers think that next year will be the banner year in the business. They expect to see mackerel schooling in large numbers, even better than the present season and are making all preparations to get a larger share of the business. Several large new schooners will be built but how many could not be learned. There will certainly be three and may be seven or eight if the remainder of the season proves successful. The schooners are to be fine vessels built on the latest models and designed for speed. While all of the shares in the vessels have not yet been taken, the prospect is excellent and Portland's fleet of fishing schooners will doubtless receive large additions next season. It is the intention of the promoters of the plan to have the vessels ready for the southern cruise. At least one of the fleet will be an auxiliary naphtha schooner.
